"Do Everything in Love" 1 Corinthians 16:14

Friday 28th April 2023

As reported in last week's newsletter, the new term got off to a special start for years 3,4 & 5 with a Faith Day at the Church of Christ the King on the Isle Lodge. Through various activity workshops and a drama presented by the Worship Warriors, the children learned about the Easter Story, it's message of salvation and the pilgrim's journey that we are on.

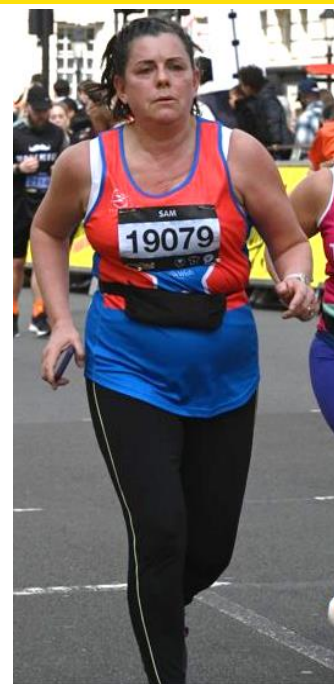

However, it is not too late for me to wish you a Happy Easter, as the Easter season officially lasts 40 days, even if we have run out of chocolate! Children from year 5 were reminded of this last week, when they attended a Thanksgiving Service at Peterborough Cathedral (pictures on page 3). For all but one, it was their first visit to the magnificent cathedral, where we spent the day learning about the history of the cathedral and the monastery that preceded it and taking part in various creative activities, making pilgrim badges, a bishop's mitre (pointy hat) and other faith symbols. I am sure that the day made a big impression on all who were able to attend. So, I hope that we can all carry the hope that Easter brings through this busy term, as the school year moves towards its close.

As well as supporting school events, the Governors maintain a regular programme of oversight of various areas, such as safeguarding, health & safety, curriculum development and assessment data. I am pleased to say that we are invariably impressed by the thorough and professional approach of the school staff.

My New Year message of hope for the future has not changed, and Easter only makes that hope all the more real, as Christians celebrate the resurrection of Jesus and the new life that brings.

Mark Broughton
Chair of Governors

A big well done and congratulations to Mrs. Perry, who completed her Half Marathon last Sunday raising £1,300 for the Make a Wish Charity.

Samantha,
Thank you for
pre-registering
for LLHM 2024

Peterborough Cathedral 14th April 2023

Here are some more pictures from our very fun and educational visit made by the Dental Nurses of Northampton University.

Did you know:

- The first set of teeth (baby teeth) has 20 teeth.
- The second set of teeth (adult teeth) has 32 teeth.
- Baby teeth start to form when the baby is still in the womb, but don't begin to erupt until a child is between 6-12 months old.
- Teeth are the only part of the human body that can't repair itself.

24TH-28TH APRIL 2023
