"Do Everything in Love" 1 Corinthians 16:14

Friday 26th May 2023

This week we have been focused on our key values and I have had the pleasure of sharing the incredible work of our children through their class worship sessions. The worships were very well attended by our family and friends; thank you so much for joining us. Key Stage 2 have been learning to consider the enquiry question: Is conflict ever justified? And this week we have had a visit from Bletchley Park looking at our Amazing Ambassador, Alan Turing, pictures on page 2. In our study of 'What the Romans left behind'; we learnt about Caesar cipher, this learning was deepened on this WOW day experience this week. As we prepare for half term, I hope and pray that the sunshine continues to shine on you all.

Last week, I was so excited to invite my brother, his wife and my niece to perform for the whole school family. The children were enchanted by the playing of the violin and the bassoon and enjoyed the wide range of music played across different time periods.

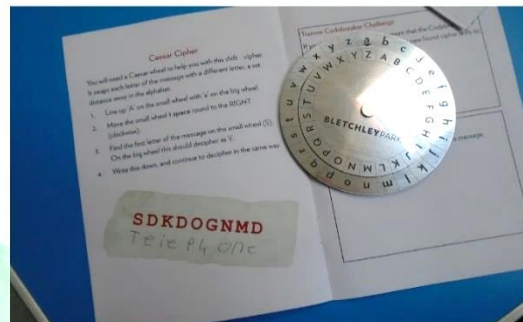

I hope you have a relaxing break and we look forward to welcoming your children back to school on Monday 5th June

With warm wishes,

Diane Wright MA (Education)

HEADTEACHER

On Wednesday, we had an incredible, special visitor at our primary school from Bletchley Park, who brought along a fascinating artefact — the Enigma machine which we now know was crucial in World War 2. As our students gathered around, wide-eyed with curiosity, they were transported back in time to the era of secret wartime communications. Together, they embarked on a captivating journey of code breaking and deciphering mysterious codes that challenged their young minds. It was a truly immersive experience, bridging the gap between history and modern-day technology, instilling a passion for problem-solving and the importance of codebreaking in the process. We are immensely grateful to our visitor from Bletchley Park for inspiring our students and igniting a spark of curiosity that will undoubtedly continue to grow.

Our children had a fun visit from Wicky Bear!
Wicky came into school to see the children and promote their new competition.
See below for details:

"Attention all children aged 11 and under! The playground at Wicksteed Park has been a beloved fixture of Kettering for over a century, and we're excited to celebrate the future of play with an amazing competition! We're looking for creative young minds to design a new piece of playground equipment that will be installed in the park. You can submit your design in either a 2D format or an image of a 3D model.

The winning design will be chosen by a panel from Wicksteed Leisure, Wicksteed Park, and Northamptonshire Council. The chosen design will then be manufactured by Wicksteed Leisure Ltd and installed in the playground for everyone to enjoy".
