

Welcome back to the Dove Class

Year 6

Spring

Welcome back to a new exciting term! I hope your Christmas break was relaxing and filled with happiness: now it's time to dive headfirst into a Spring term. Get ready for an exhilarating journey as we explore the extreme wonders of our planet in our thought-provoking geography topic- What's extreme about Earth? Together, we'll unravel the mysteries that make the Earth truly exceptional. Brace yourselves for the explosive world of earthquakes and learn about why, where and when we have earthquakes. Linked to earthquakes, in art the children will develop their painting skills to show movement. Science will take you on a captivating voyage into the fascinating world of electricity. Our exploration doesn't stop there! In our RE lessons, we'll delve into the profound concept of salvation, adding depth to our understanding of faith and spirituality. Meanwhile, in our PSHE sessions, we will focus on social media and relationships. This is just a tantalizing glimpse of the incredible term ahead, building up to the vibrant new life of Easter and the sweet indulgence of chocolate it brings!
