"Do Everything in Love" 1 Corinthians 16:14

Friday 11th February 2022

As the school term draws to a close we reflect on the Fruit of the spirit- "Patience" I think it is more than fair to say that all of us have had to wait patiently for so many things this year. Covid restrictions are due to change; the daylight hours are to draw longer and not to mention all the other things! Thankfully this week has brought us fewer children and staff absent from Covid and I am so proud of the teachers who have done all that they can to ensure that children are taught by qualified staff who know all of our pupils well.

We had our school improvement consultant in this week, Andrew Lakatos (an Ofsted inspector) to drill down on our provision for your children. Following conversations with staff and pupils, lesson visits and book looks, we are pleased to say that our provision was praised by him.

One of the areas that we are working hard to create is our creative connected curriculum. In our topic, "There's no place like home" (Kettering) the children in the juniors have been studying all about the locality and plotting maps. They have used google earth and street view to find places in our town and been on walks to look at the location. Moving forward we will be studying all about the shoe industry (the core industry in Kettering) and creating films of the places we have visited.

We hope and pray that you have a restful half term... who knows - we may even have snow.

With blessings,
Diane Wright MA (Education) HEADTEACHER

To safeguard our school community, please may we request that **NO MOBILE PHONES** are to be used anywhere on the school site, on the playground or inside the school.

Covid-19 Guidance

If you have a positive case in the household children over five years old are asked to do a LFT test daily and CAN attend school if they have a negative result.

If a child has any covid symptoms, they should go for a PCR test.

Please can we ask all Parent/Carers to continue wearing face coverings in and around the school site.

Please note: COVID-19 cases are high in Kettering currently, so please ensure you notify us by email of any positive Coronavirus results at any time of the day and weekend via our Covid email address. As per current guidance, we do not need immediate action on a single case to isolate individuals, as we will be notified by NHS Track and Trace.

Email: covid@stmarysprimarykettering.co.uk

SCHOOL VACANCY

We currently have several vacancies available of different roles at our school. If you are interested please head over to our website www.stmarysprimarykettering.co.uk, click the “our school” tab and then click “vacancies.”

Our school re-opens to pupils on Monday 21st February 2022.

With blessings,

Diane Wright MA (Education)
HEADTEACHER

What Parents & Carers Need to Know about

YOUTUBE

YouTube is a video-sharing social media platform that allows billions of people around the world to watch, share and upload their own videos with a vast range of content – including sport, entertainment, education and lots more. It's a superb space for people to consume content that they're interested in. As a result, this astronomically popular platform has had a huge social impact: influencing online culture on a global scale and creating new celebrities.

INAPPROPRIATE CONTENT

YouTube is free and can be accessed via numerous devices, even without creating a YouTube account. Some content is flagged as 'age-restricted' (requiring the user to be logged into an account with a verified age of 18), but children can still view some mildly inappropriate material. This can include profanity and violence, which some young users may find upsetting.

CONNECT WITH STRANGERS

YouTube is a social media platform which allows people to interact with other (usually unknown) users. Account holders can leave comments on any video they have access to, as well as messaging other users directly. Connecting with strangers online, of course, can potentially lead to children being exposed to adult language, to cyberbullying and even to encountering online predators.

SUGGESTED CONTENT

YouTube recommends videos related to what the user has previously watched on their account, aiming to provide content that will interest them. This is intended to be helpful but can also lead to binge-watching and the risk of screen addiction, especially if 'auto-play' is activated. Users without an account are shown popular videos from the last 24 hours, which might not always be suitable for children.

HIGH VISIBILITY

Content creators can also be put at risk – especially young ones who try to make their online presence as visible as possible. Creating and uploading content exposes children to potential harassment and toxicity from the comments section, along with the possibility of direct messaging from strangers. Videos posted publicly can be watched by anyone in the world.

TRENDS AND CHALLENGES

YouTube is teeming with trends, challenges and memes that are fun to watch and join in with. Children often find these immensely entertaining and might want to try them out. Most challenges tend to be safe, but many others may harm children through either watching or copying. The painful 'salt and ice challenge', which can cause injuries very quickly, is just one of many such examples.

SNEAKY SCAMMERS

Popular YouTube channels regularly have scammers posing as a well-known influencer in the comments section, attempting to lure users into clicking on their phishing links. Scammers impersonate YouTubers by adopting their names and profile images, and sometimes offer cash gifts or 'get rich quick' schemes. Children may not realise that these users are not who they claim to be.

Advice for Parents & Carers

APPLY RESTRICTED MODE

Restricted Mode is an optional setting that prevents YouTube from showing inappropriate content (such as drug and alcohol abuse, graphic violence and sexual situations) to underage viewers. To prevent your child from changing across age-inappropriate content on the platform, we would recommend enabling Restricted Mode on each device that your child uses to access YouTube.

18

CONTENT

TRY GOOGLE FAMILY

Creating a Google Family account allows you to monitor what your child is watching, updating and sharing with other users. It will also display their recently watched videos, searches and recommended videos. In general, a Google Family account gives you an oversight of how your child is using apps like YouTube and helps you ensure they are only accessing appropriate content.

CHECK PRIVACY SETTINGS

YouTube gives users the option of uploading videos as 'private' or 'unlisted' – so they could be shared exclusively with family and friends, for example. Comments on videos can also be disabled and channels that your child is subscribed to can be hidden. If your child is only uploading videos that are protected as 'private', they are far less likely to receive direct messages from strangers.

CHECK OTHER PLATFORMS

Influential content creators usually have other social media accounts which they encourage their fans to follow. Having an open discussion about this with your child makes it easier to find out how else they might be following a particular creator online. It also opens up avenues for you to check out that creator's other channels to see what type of content your child is being exposed to.

MONITOR ENGAGEMENT

YouTube is the online viewing platform of choice for billions of people, many of them children. Younger children will watch different content to older ones, of course, and react to content differently. You may want to keep an eye on how your child interacts with content on YouTube – and, if applicable, with content creators – to understand the types of videos they are interested in.

LIMIT SPENDING

Although YouTube is free, it does offer some in-app purchases: users can rent and buy TV shows and movies to watch, for example. If you're not comfortable with your child purchasing content online, limit their access to your bank cards and online payment methods. Many parents have discovered to their cost that a child happily devouring a paid-for series quickly leads to an unexpected bill!

Coronavirus (COVID-19)

Hands

Face

Space

Fresh air

Anyone in my house develops Coronavirus symptoms:

- New continuous cough
- High temperature
- A loss of, or change in, your normal sense of taste or smell (anosmia)

Anyone in your household has a test for Covid-19

<https://www.nhs.uk/ask-for-a-coronavirus-test> or by calling 119

If you are reporting a positive Covid case during school hours please inform us by the usual method of communication on our telephone number 01536 485500 or email office@stmarysprimarykettering.co.uk

Out of school hours evenings/weekends:

Email: covid@stmarysprimarykettering.co.uk

Please notify us by email of any positive results over a weekend or an evening as per current guidance we do not need immediate action on a single case to isolate individuals, as we will be notified by NHS Track and Trace.

In order to ensure that the school remains the safest possible environment for the children and staff, and that the risk of transmission is reduced, we all need to work together to ensure that we follow the latest Government guidance.
